1. The only problem here is the ability to hear in a setting where just separate tables are available instead of separate rooms.
2. as people become accustomed to this practice it might also serve to cause more of our members to be at the meetings
3. Committee time has been a problem in the past.

1. What at first glance looked to be a boring presentation was actually good. So much for stereotyping librarians.

1. attended from mid-afternoon on at the old state capitol as I was at the administrators academy coordinators meeting from 10 til around 2. There were several other assistant regional supts at the adm. academy meeting as well. I would suggest that if the IARSS meetings can somehow avoid the AA coordinators dates that would be extremely helpful as I really hated to miss the truancy portion of the 2 day meetings! Thanks for your consideration and also for the forum to express thoughts and comments!
2. The meeting in the Old State Capitol was one to remember the rest of my life. I felt really special.
